INTERMEDIATE MICROECONOMICS

PURPOSE OF THE COURSE

This course will cover the basic concepts and techniques that form the cornerstone of all microeconomic analyses. The course will devote considerable time to solving analytic problems. An understanding of calculus is important for your success in this course. You are advised to enroll in a different section of ECO 3101 if you are not comfortable with mathematical analysis.

COURSE MATERIAL

The required textbook for this course is: Microeconomics, by Robert Pindyck and Daniel Rubinfeld (Pearson, 2018, Ninth Edition).

COURSE WEB SITE

The class web site can be found at: elearning.ufl.edu. The site contains lecture slides, problem sets, and other information.

GRADING POLICY AND SCALE

Grades are calculated as follows:

Exam 1	30%	Homework Assignments	5%
Exam 2	30%	Economic Analysis Project	5%
Exam 3	30%		

The following scale will be used to determine your final course grade:

92.00-100	A	77.00-79.99	C+
90.00-91.99	A-	72.00-76.99	C
87.00-89.99	B+	70.00-71.99	C-
82.00-86.99	B	62.00-69.99	D
80.00-81.99	B-	0-61.99	E

Make-up exams will be arranged only for absences that are explicitly covered by the [UF Attendance Policy](#). Whenever possible, you should reach out at least five business days in advance to arrange a make-up assignment or exam. Of course, this will not always be possible. Unforeseen absences and emergencies occur and can be excused without such advance notice. In most cases, you will be asked to provide evidence or documentation of an absence that is explicitly excused by the [UF Attendance Policy](#). Absences related to religious holidays and worship do not require this documentation.

COURSE REQUIREMENTS

This is a fully in-person course. Lectures will not be streamed nor recorded. Attendance at all lectures is a course requirement.

We will have three in-class examinations: one on September 20nd, October 18th, and one on December 6th. These closed-book exams will take place in our regularly assigned classroom. You may use a basic four-function or scientific calculator. Graphing calculators are not permitted. Attendance at all examinations is a course requirement.

There are five homework assignments. Homework Assignments must be turned in by the start of the class period, even if you are not in class that day. You are encouraged to work with your classmates while completing these assignments. Working together can facilitate deeper learning of the course material and more efficient completion of the assignment itself. You must, however, turn in your own work. Late assignments will not be accepted because I will provide answers to the assignments at the beginning of the class period.

The complete schedule of homework assignments is listed below:

<u>HOMEWORK</u>	<u>OPEN DATE AND TIME</u>	<u>CLOSE DATE AND TIME</u>
Homework 1	Sept. 6, 3:00pm	Sept. 13, 9:30am
Homework 2	Oct. 4, 3:00pm	Oct. 11, 9:30am
Homework 3	Oct. 25, 3:00pm	Nov. 1, 9:30am
Homework 4	Nov. 8, 3:00pm	Nov. 15, 9:30am
Homework 5	Nov. 17, 3:00pm	Nov. 22, 9:30am

Economic Analysis project involves delivering a lecture about an economic issue of your choice, using the tools and concepts developed in class. You can choose either November 22nd or November 29th to do your presentation. You can choose to either present by yourself or work as a group. Each group are expected to include no more than 3 people and each person (either by yourself or in a group) are expected to present about 5 minutes. You are expected to make slides and send your slides to me at least five days before your presentation.

Please follow all university guidelines regarding COVID-19 safety.

Professionalism and Honor Code: Students are bound to not cheat or plagiarize, and are bound by The Honor Pledge which states, “We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honor and integrity by abiding by the Honor Code. On all work submitted for credit by students at the University of Florida, the following pledge is either required or implied: ‘On my honor, I have neither given nor received unauthorized aid in doing this assignment.’”

You should familiarize yourself with the [UF Student Honor Code](#). Cheating and plagiarism are not the only violations of this policy. Importantly, ignorance of a policy is not a valid reason for violating it.

Students Requiring Accommodations: Students with disabilities requesting accommodations should first register with the Disabilities Resource Center (392-8565; <https://disability.ufl.edu/>), providing appropriate documentation. Once registered, students will receive an accommodation letter that can be presented to the instructor when requesting accommodations. Please register at the beginning of the course if seeking accommodations.

Course Evaluation: Students are expected to provide professional and respectful feedback on the quality of instruction in this course by completing course evaluations online via GatorEvals. Students will be notified when the evaluation period opens, and can complete evaluations through the email they receive from GatorEvals, in their Canvas course menu under GatorEvals, or via ufl.bluera.com/ufl/.

UF Teaching Center: The UF Teaching Center offers guidance on study skills and tutoring services. You can find more information at: <https://umatter.ufl.edu/office/teaching-center/>.
