Course Description: This is a second-year Ph.D. course on *theoretical* public economics. Students are assumed to have taken the first year of Ph.D. courses in economics. The course is concerned primarily with public goods and their provision. This is a vast area implying we can only examine a small fraction of the literature and results, especially in a half-semester class. I chose readings in an attempt to cover key elements of the area, while also playing to my research strengths. The specific topics are listed in the course outline below.

Topic Outline (estimated class meetings)¹

1. Externalities and Public Goods Basics (3)
2. Private Provision of Public Goods (3)
3. Majority Choice (3)
4. Club Goods and Local Public Goods (3)
5. Public Provision of Private Goods (2)

Class Schedule: Classes meet 9:35 – 11:30 am Tuesday and Thursday Jan. 9 – Feb. 22. We will decide what to do the last week of the half-semester, probably just the final exam, at a date we will agree on.

¹ Time spent on each area is tentative. We'll adjust times as the course unfolds.

Readings: (** indicates a required reading; * is recommended reading; other readings are important as well but of less immediate significance to the course. I will indicate as the course unfolds what papers we will examine in class.)

*Do required reading **carefully** before class.*

1. Externalities and Public Goods Basics

** Mas-Collell, A., Whinston, M., and J. Green, “Externalities and Public Goods,” Chapter 11 in *Microeconomic Theory*, Oxford University Press, 1995.

Grading: Your course grade will be based on two paper summaries (40% of course grade) and on a final exam (60% of course grade). Each paper summary should be of a paper related to a topic we are discussing in class but not one that I will lecture on. They should be 3 – 4 pages long and clearly convey that you understand the paper. The first is due on Feb. 6 and the second on Feb. 20. Clear with me the paper you will summarize. We will decide on the date, time, and room for the final exam, during the week of Feb. 25 – March 3.

Honor Code and Students with Disabilities: I adhere to the honor code of the University of Florida and students are expected to do the same. Policy for students with disabilities is as codified by the University of Florida. Please contact me if you will require accommodation.

Below is a list of papers that includes a few not on your syllabus, thus providing a few more papers from which to choose for your paper summaries. You can as well choose papers on the syllabus that are not **, but please get my approval. And you can suggest other papers as well.
