

**UNIVERSITY OF FLORIDA**  
**Intermediate Macroeconomics (ECO 3203)**

**Summer B 2024 – Prof. Min Fang**

**Course Description**

ECO 3203 prepares junior students to be literate in macroeconomic topics. How do policymakers observe the state of the economy, and what are the tools used to mitigate business cycles? What were the modeling and policy failures that led to the Great Financial Crisis? These are just some of the questions we will tackle in this course using introductory macro models that explain the relationships between variables such as the unemployment rate, national income, and price levels. We will also analyze how changes in decision variables, such as interest rates, taxes, and government spending, affect the aggregate economy. We will broadly explore both the short run to examine business cycles and the long run to analyze the determinants of economic growth. If time permits, we will also examine rising income inequality and the effects of globalization on macroeconomic variables.

### **Problem Sets**

Problem sets will be assigned most weeks. Problem sets will always be assigned at least a week before they are due. I encourage you to work in small groups to solve the problem sets but be sure you can understand and solve them individually. The exam problems will reflect - but not exactly resemble - those on the problem sets.

### **Grading**

Problem sets will account for 25% of your grade. The first midterm will account for 25%, the second midterm will account for 25%, and the third midterm will account for 25%. Finally, random attendance checks will be used for the curve of final grades (no clear rules will be made here). After all the scores are available, I will assign letter grades based on a curve. The specific distribution of the grades will depend on the class's overall performance.

Two rules for problem sets. First, your lowest problem set grade will be dropped. Second, I will allow each student one no-questions-asked 48-hour extension for a late problem set if they email me before the deadline during business hours (**rules are rules, after deadline, extensions are not allowed and do not expect me or the TA to reply to emails during non-business hours.**). These are lenient policies, so no other extensions or late problem sets will be allowed.

Three rules for midterms. First, I do not allow make-up exams. Second, if you miss one of the midterms due to illness (**Verified official doctor's notes are required from DRC or Dean of Student Office, you must let me know at least one day before the exam, but the documents should arrive in my email only through them;** I won't reply or agree on any documents send to me directly. I have a whole folder of a collection of fake sick/deaths/accidents emails through these

years.....); you could allocate the weight equally to the other two without penalty. Third, if you miss one of the midterms voluntarily (you must let me know at least one day before the exam), you could have the weight allocated equally to the other two, but with a penalty of -5 points when calculating the final letter grade (say if you have assignments of 25, missed midterm 1, midterm 2 of 25, midterm 3 of 25, your final grade would be  $25 + (25 + 25) * 0.75 / 0.50 - 5 = 95$ ).

Assignments	Midterm 1	Midterm 2	Midterm 3
25%	25%	25%	25%

The final letter grade will be determined using the following scale, where the course score will be rounded to the nearest whole number. Once the final exam is graded, there will be no opportunity to change your grade or provide you with any extra credit after the fact.

A 93-100	A- 90-92	B+ 87-89	B 83-86	B- 80-82	C+ 77-79
C 73-76	C- 70-72	D+ 67-69	D 60-66	E 0-59	

### **Boilerplate**

Enrollment in this course constitutes acknowledgment of the following:

- 1) the University of Florida expects its students to be honest in all their academic work. I agree to adhere to this commitment to academic honesty and understand that my failure to comply with this commitment may result in disciplinary action, up to and including expulsion from the University.
- 2) I will adhere to university copyright policies.
- 3) Students requesting classroom accommodation must first register with the Dean of Students Office. The Dean of Students Office will provide documentation to the student, who must then provide this documentation to the instructor when requesting accommodation.

### **University-mandated Disclaimer for Online Courses**

Our class sessions may be audio-visually recorded for students in the class to refer back to and for enrolled students who cannot attend live. Students who participate with their camera engaged or utilize a profile image agree to have their video or image recorded. If you are unwilling to consent to having your profile or video image recorded, keep your camera off and do not use a profile image. Likewise, students who unmute during class and participate verbally are agreeing to have their voices recorded.

Suppose you are not willing to consent to recording your voice during class. In that case, you must activate your mute button and communicate exclusively using the "chat" feature, allowing students to type questions and comments live. The chat will not be recorded or shared. As in all courses, unauthorized recording and unauthorized sharing of recorded materials is prohibited.
